PROFILE

Java Developer with over three years of experience in designing and implementing scalable applications. Specialized in building robust systems using Java, Spring Framework, and Angular, with a proven ability to integrate complex components and deliver seamless user experiences along with efficient data processing and storage. Dedicated to delivering high-quality, maintainable solutions while adhering to best practices in software development. Consistently focused on exceeding project objectives and meeting client expectations. Experienced in leveraging cloud platforms such as Azure and GCP for deploying, managing, and scaling applications effectively.

PROFESSIONAL EXPERIENCE

Associate Engineer, *Virtusa Consulting Services PVT Ltd* 06/2022 – Present | Chennai, India

- Contributed to the development of key features for the MICROMEDEX project, including advanced search tools and updated access to pharmaceutical and clinical resources, which enhanced user engagement and information accessibility.
- Collaborated with cross-functional teams to integrate complex backend systems with Angular (v21) frontend, improving functionality and ensuring seamless user experiences across the Micromedex platform.
- Actively participated in Agile SDLC activities for smooth project progress.
- Engineered robust APIs and data management solutions to support comprehensive medication, disease, and toxicology management, and facilitate reliable and evidence-based clinical decision support.
- Utilized advanced Java (v21) and Spring Boot (v2.5) features to support scalable application development, contributing to a 20% improvement in system performance and reliability.
- Implemented CI/CD pipelines using Jenkins, automating build, test, and deployment processes to ensure faster and more reliable releases across multiple environments.
- Integrated RabbitMQ for asynchronous messaging, improving system scalability, reliability, and efficient communication between signals from the content pipeline controller in Micromedex platform.

Intern, *Virtusa Consulting Services PVT Ltd* 01/2022 – 05/2022 | Chennai, India

- Assisted in developing and maintaining Java-based web applications, ensuring clean and efficient code.
- Worked with Spring Boot to build simple REST APIs and integrated them with databases.
- Gained hands-on experience with database operations (MySQL/DB2) including CRUD operations.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering, *Nandha College Of Technology* 07/2018 – 05/2022 | Chennai, India
CGPA - 8.2/10.0

CERTIFICATES

- ITIL V4 Foundation Certification | - Microsoft Certified: Azure Fundamentals

SKILLS

Programming — JAVA 21 | Spring boot | microservices | Python | Angular | HTML/CSS | Javascript | XML

Databases and Cloud Platforms — Oracle SQL Developer | MySQL | GCP | Azure

Softwares — Eclipse | VS Code | WinScp, Putty | JIRA | GITHUB | GIT | Jenkins

SoftSkills — Ability to Learn | Communication | Researching | Troubleshooting | Work well under pressure
